

户外百叶帘

External venetian blinds

Der SonnenLichtManager

营造舒适的室内环境 Create a feel-good indoor climate

作为市场引领者和领先的日光管理专家，我们望瑞门60多年来一直致力于开发高端且富有设计性的户外百叶帘方案。无论是用于新建筑或翻修旧建筑，我们的系统都可以和谐地融入到任何建筑的幕墙中，保证您随时都能灵活地利用日光——完全符合您的意愿。我们能真正提高您的生活质量，实现能源效率最大化。

As the market leader and leading SunLight Manager, we at WAREMA have been developing high-grade and design-oriented external venetian blind solutions for over 60 years. Whether for new buildings or renovations, our systems can harmoniously blend into any building facade and guarantee flexible daylight utilisation for you at any time – perfectly attuned to your wishes. For a real boost to your living quality and maximum energy efficiency.

全玻璃角: 开阔的视野

现在通过利用叶片的角部结合, 在角落位置的户外百叶帘也可被设计成无角落障碍导向——使得升起户外百叶帘时, 现代化全玻璃角开阔的视野得以实现。

All-glass corners: at last unimpeded view

External venetian blinds in corner positions can now also be designed without an obstructive guidance on the corner using corner joints on the slats – for an unobstructed view of the modern all-glass corner when the external venetian blinds are raised.

视觉隐私与视野的完美结合: ProVisio户外百叶帘

ProVisio代表:

Protect = 保护视觉隐私

Visio = 改善视野

ProVisio户外百叶帘不仅可以隔绝热量和刺眼的阳光, 还可以防止偷窥, 因为叶片的不同翻转角度是根据人类的视角设计而成——同时还保持了极佳的视野。

Visual privacy perfectly combined with a view out: external venetian blinds ProVisio

ProVisio stands for:

Protect = more visual privacy

Visio = improved view out

An external venetian blind with ProVisio keeps more than just heat and dazzling sunrays out. Thanks to the different angles of the slats that are designed to mimic the angle of human sight, it also protects against prying eyes – while maintaining an extremely good view out.

最大宽度
Max. width
4000 mm

最大高度
Max. height
3000 mm

最大面积
Max. area
12 m²

不带ProVisio的户外百叶帘 External venetian blinds without ProVisio

带ProVisio的户外百叶帘 External venetian blind with ProVisio

平边叶片

除了可以实现更小的堆叠高度, 平边叶片百叶帘为建筑外立面带来了更显著的横向线条效果。

Flat slats

Flat slats have striking slim line design and smaller packet heights which create nice horizontal look in exterior building.

最大宽度

WMS-望瑞门移动控制系统

- 无线遥控
- 通过手持式, 壁挂式遥控器或智能手机轻松操作

WMS – WAREMA Mobile System

- Radio remote control
- Easy operation with handheld, wall-mounted transmitter or smartphone

望瑞门Wisotronic控制系统

- 控制各种遮阳产品的理想选择
- 舒适的室内生活和工作环境的保障——即使是您不在的时候

WAREMA Wisotronic

- Ideal for controlling various sun shading products
- Guarantees a comfortable indoor climate and a cosy living and working environment – even when you aren't there

1mm冲压铝制抗风叶片

对于户外遮阳系统而言——尤其是对高层建筑上或是风力较大区域的建筑上的百叶帘而言，抗风性很重要。凭借极佳的稳定性和耐用性，望瑞门1mm户外百叶帘抗风性可达到20米/秒。

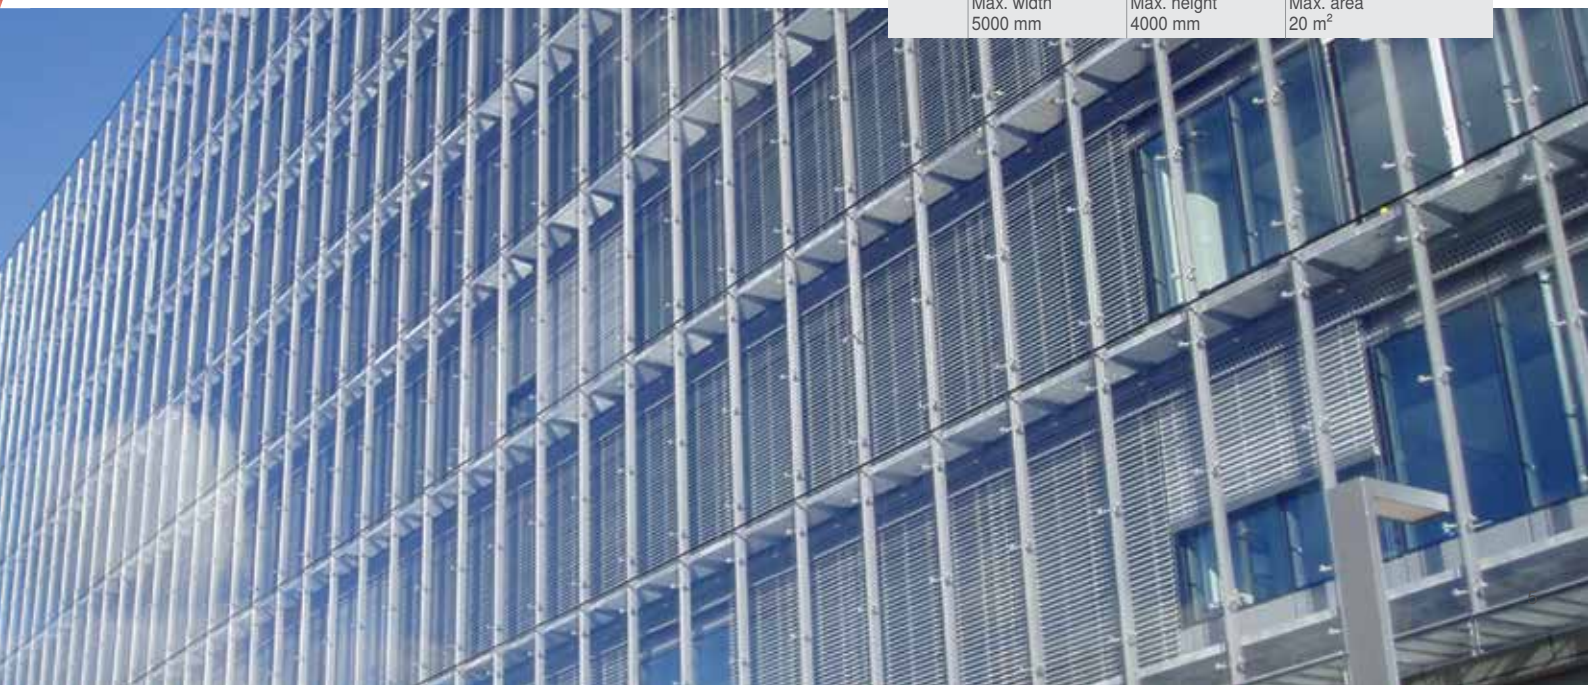

Wind stable 1mm extruded aluminum slat

Wind can be a challenge for external venetian blind systems – be it on tall buildings or in windy regions. With their extreme stability and durability, 1mm wind-stable external venetian blinds from WAREMA are windproof up to 20m/s.

4000 mm

最大面积
Max. area
20 m²

卷边叶片80S

如果您注重抗风性, 那么卷边叶片是更好的选择。适用于窗型比较大的窗户, 能够可靠地安装在外立面幕墙上。百叶帘叠高比之前减少约25%。

Beaded slats 80S

Beaded slat is another option if you need wind resistant. Good for large windows where you can reliably keep the sun shading outside. Roughly 25% less stack height than before.

最大宽度

20 m²

望瑞门Climatronic® 3.0控制系统

- 控制遮阳和光线
- 始终保持最佳的舒适环境
- 也可以通过app进行操作

WAREMA Climatronic® 3.0

- Control of sun shading and lighting
- Optimal feel-good climate at all times
- Operation also possible via app

自动阳光跟踪

- 根据阳光跟踪实现遮阳系统自动调整百叶高度和叶片角度, 为您提供全年完美的日光管理。

Sun tracking

- Mathematical calculation of the position of the sun to provide consistent shading levels with slatted products and create the perfect level of daylight throughout the year.

打孔遮阳百叶

开孔叶片带来一定的透视性, 人们能透过百叶帘看到室外的景物, 不仅能引入舒适的自然光还具备防眩光功能。

Perforated slats

Perforated slats are good for keeping visibility from indoor, people can see more outdoor through blinds with comfortable natural light also have glare protection.

最大高度
Max. height
4000 mm

最大面积
Max. area
20 m²

日光导向帘TLT

望瑞门日光导向百叶帘专为传送日光而设计。它们有效地引导光线至房间的天花板并漫反射到房间内部。在许多情况下,这就可以消除对人工照明的需求,同时,也保护了房间免受热辐射。

Daylight guidance blinds TLT

WAREMA daylight guiding venetian blinds are specially designed for transporting daylight. They effectively guide light across the room ceiling and far into the room interior. In many cases, this can eliminate the need for artificial lighting. At the same time, they protect the room against heat radiation.

最大宽度
Max. width
5000 mm

最大高度
Max. height
5000 mm

最大面积
Max. area
25 m²

带有附加的日光导向功能

- 极强的防眩光功能
- 日光导向功能使室内明亮,因此也就减少了人工照明的使用
- 用户能自由调节户外百叶帘,因此保证了开阔的视野享受

Daylight guidance advantages

- Anti-glare of the work settings
- Makes the interior brighter, thus reducing the use of artificial lighting
- The user can freely adjust the blinds, thus guarantee open view

半遮光叶片的优势

- 由于特殊的叶片几何形状和插入叶片前缘的抗紫外线珠，叶片完全关闭
- 市场上最坚固的半遮光叶片且具有高抗风性

Dim-out slat advantages

- Slats close completely thanks to a special slat geometry and the UV-resistant bead inserted in the front edge of the slat
- Most robust dim-out slat on the market with high wind-resistance

半遮光

望瑞门半遮光配置的卷边叶片十分坚韧，同时具有独特的特殊互锁形状，从而极大地减少了日光。每片叶片都配有橡胶衬垫，可在叶片之间形成柔和的密封效果。因此这种百叶帘非常适合用于卧室，演播室以及任何需要按照需求减少光线的地方。

Dim-out

WAREMA dim-out profile offers the rigidity of a rolled edge slat with a unique special interlocking shape that greatly reduces daylight. Each slat is formed with a rubber insert that creates a gentle seal between slats. The blind is therefore ideally suited for bedrooms, presentation rooms and anywhere where the incidence of light needs to be reduced on demand.

最大宽度
Max. width
4500 mm

最大高度
Max. height
4300 mm

最大面积
